Teaching and Learning Experience Sharing (TALES) Workshop

Enhancing Student Learning in Academic Integrity and Ethics With Augmented Reality Technology

Professor Mark PEGRUM

Graduate School of Education
The University of Western Australia
Perth, Australia

with case sharing by HKBU colleagues

Date: **24 Feb 2016 (Wed)**

Time: **12:30 p.m. – 2:30 p.m.**
Light lunch from 12:15-12:30

Venue: **ACC209**
2/F, Jockey Club Academic Community Centre,
9 Baptist University Road, Baptist University
Road Campus

Biography:

Mark Pegrum is an Associate Professor in the Graduate School of Education at The University of Western Australia, where he teaches in the areas of e-learning and mobile learning. His current research focuses on digital literacies, and the learning of language and literacy through mobile technologies. His recent books include "Brave New Classrooms: Democratic Education and the Internet", co-edited with Joe Lockard, and published by Peter Lang in 2007; "From Blogs to Bombs: The Future of Digital Technologies in Education", published by UWA Publishing in 2009; "Digital Literacies", co-authored with Gavin Dudeney and Nicky Hockly, and published by Pearson in 2013; and "Mobile Learning: Languages, Literacies and Cultures", published by Palgrave Macmillan. He currently teaches in Perth, Hong Kong and Singapore, and has given presentations and run seminars on e-learning in Australia and New Zealand, East and Southeast Asia, the UK and Europe, and South America.

Abstract:

Advances in technology always bring about new opportunities in education. With the proliferation of smartphones and other smart mobile devices, teachers can design more interactive teaching and learning activities to engage students in learning within and beyond the classroom.

In this workshop, an overview of mobile augmented reality technology in tertiary education will be presented. This introduction will then be followed by HKBU case sharing on using an augmented reality application to help students grasp the concept of academic integrity and ethics in different subject disciplines. This research has been developed under the inter-institutional AIE-AR project funded by the University Grants Committee. This HKBU-led project was recently named the "Silver Winner for the category of Regional Award Asia" at the second Wharton-QS Stars Reimagine Education Awards 2015. For details of the AIE-AR project, please visit: http://ar-learn.com/.
