

GROUP CHOICE

1

You can allow students can enroll themselves in the group you have created. **(Please make sure you have created Groups before using this function)**

To form a group, please define how many groups you would like to create

Go to Course: **Action** ⚙️ > **User** > **Group**

The screenshot shows the Moodle Course Administration page for 'eLearning Training Workshop 20 [2017]'. The 'Users' tab is selected, and the 'Groups' link is circled in pink. A sidebar menu on the left has 'More...' circled in pink. Below the screenshot, two numbered steps are listed:

1. Create group manually in Moodle
2. Create group automatically and randomly

Arrows point from these steps to the 'Create group' and 'Auto-create groups' buttons in the interface.

2

In the **Course Page**, click on “**Actions**” and select “**Turn editing on**”.

The screenshot shows the course page for 'eLearning Training Workshop 10 [2017]'. The 'Turn editing on' button is circled in pink.

Click “**Add an activity or resource**” and select “**Group choice**”

The screenshot shows the 'Add an activity or resource' dialog box. The 'Group choice' option is selected and circled in pink. The 'Activities' list on the right also has 'Group choice' circled in pink.

3

-Allow the students can select more than one group

-When to show the student result

-Let student know about the student who has already enrolled into the group

-Number of student in group

-Groups for student selection

The screenshot shows the 'Miscellaneous settings' and 'Groups' configuration page. The 'Allow enrollment to multiple groups' checkbox is checked. The 'Groups' section shows 'Available Groups' and 'Enrolled Groups' lists. The 'Enrolled Groups' list is circled in pink. The 'Add Group' button is also circled in pink.
