

CREATE A TURNITIN ASSIGNMENT

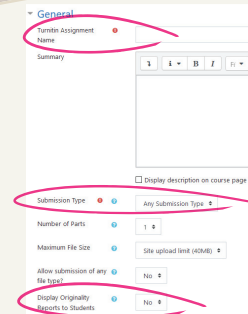

1

In your courseroom, click on “**Add an activity or resource**”, select “**Turnitin Assignment**” and click “**Add**”.

2

In the general settings page, please type the **name** and the **description** of the assignment. Select the **submission type**, **grading** (optional) and the **availability** for students to see their own originality reports.

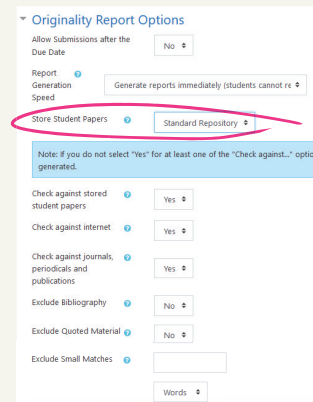

3

3a. In the advanced options, you can set to **allow late submissions**, change **report generation speed**, store student papers into the database for peer cross-checking or **check against internet, journals and other publications**.

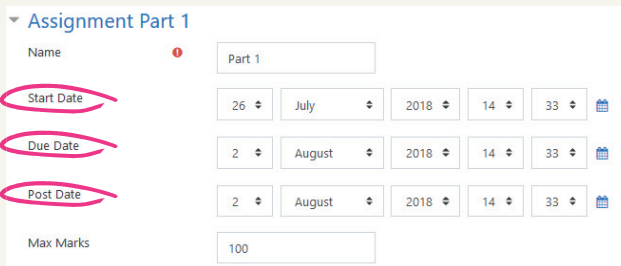

Press “**save and return to the course**” when finished.

3b. Remember to click on the **assignment** and go to the “**Summary**” tab to setup the **start** and **due date**.

4

You can change the due date and time of the assignment in **Assignment Part 1**

5

This is the end of the setup. If you want to **view** students’ submission, please go to the submission inbox to have an overview of the submissions for that assignment.
