Background

- General education course in statistics
 - Close ties with everyday life/current issues
 - End-of-semester group presentations on the use of statistics in current issues
- Observations:
 - Last-minute effort from students
 - Lack of post-presentation reflection
- e-Portfolios as potential solution

Q2: Mainland China has been exposed that they announced the H7N9 case a month after they discovered that. What does it mean?

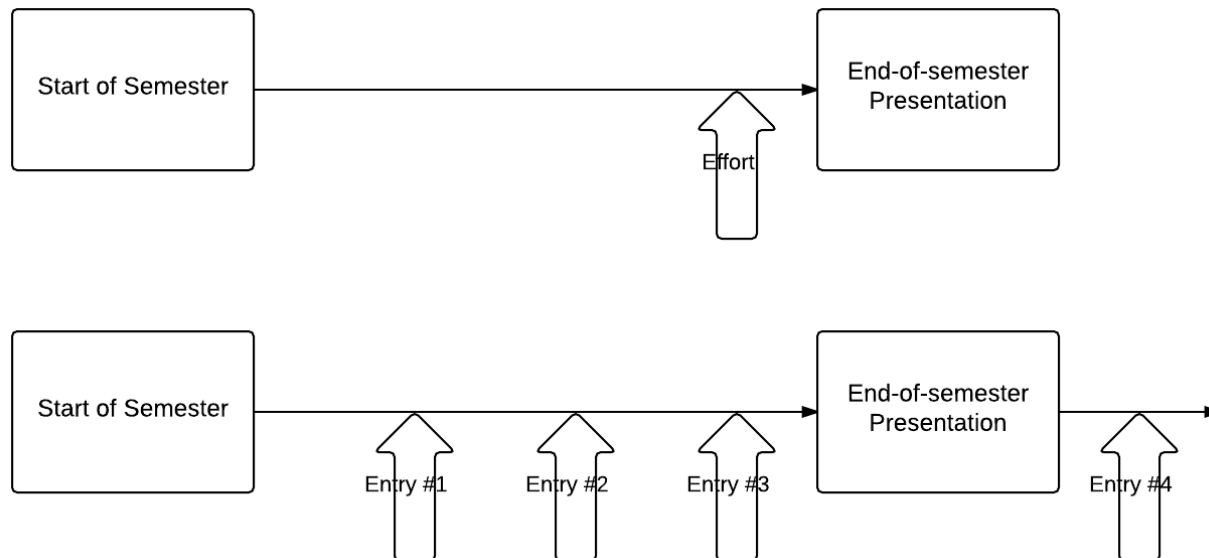

- ◆ "What does it mean?" is an open-ended question
- ◆ Possible answers are far more than options provided

GROUP 9

PRESENTATION TOPIC:

PROBLEMS OF QUESTIONNAIRE---「祖父母日」問卷調查(青年版本)

My group chose the presentation without any difficulties. My group members and I spent few minutes in viewing what we had on hand, then we made the decision of choosing the materials that I had. We found that this questionnaire had many problems and people might make these mistakes when designing the questionnaire. We hoped that our presentation could help.
