

1.1 Install Windows Recorder

Specifications

Windows XP, Windows Vista, Windows 7 (64 bit versions supported also)
Dual core 1.8ghz / 1GB RAM (recommended)
Microsoft .NET Framework 3.5 SP1
FireWire ports for digital cameras
USB ports for Webcams or other recording devices
Disable sleep mode, screen savers and scheduled tasks

Install .NET Framework 3.5 SP1

The recorder will auto-install .NET 3.5 SP1 for you if it is not detected. This also can be downloaded from the Microsoft Download Center (<http://www.microsoft.com/downloads/>).

Install Microsoft Silverlight Player

Installation of Microsoft Silverlight player is only required for viewing recordings. It can be downloaded from the Microsoft Download Center (<http://www.microsoft.com/downloads/>) or at <http://www.silverlight.net/getstarted/>

Download, Install and Log In

- 1 Go to **BU eLearning** (webtl.hkbu.edu.hk) and log in.
- 2 Choose the course that you have registered for Panopto@HKBU.
- 3 On the **Panopto Focus** panel, you can **download** the Panopto Recorder or **view** your completed recordings (e.g. Kenda testing). Locate PanoptoRecorder.exe that you've download and run the application.
- 4 The installer will self extract and begin the installation. Follow the installer instructions to complete the installation.
- 5 Once the Recorder is installed you will be able to open the software. The first time you run the recorder, you will be required to log in. Choose **Log in with HKBU Moodle** and log in with your Moodle account.

You can activate the checkbox "Remember Me" to allow automatic logging in and offline recording.
