

# 1.4 Install Mac Recorder

## Specifications

Mac OSX 10.5.x (Leopard) or 10.6.x (Snow Leopard)  
Intel based - Dual core 2.0ghz / 2GB RAM (recommended)  
FireWire ports for digital cameras  
Built in iSight camera (optional)  
USB ports for webcams or other recording devices  
Disable sleep mode, screen savers and scheduled tasks

## Install Microsoft Silverlight Player

Installation of Microsoft Silverlight player is only required for viewing recordings. It can be downloaded from the Microsoft Download Center (<http://www.microsoft.com/downloads/>) or at <http://www.silverlight.net/getstarted/>

## Installation

- 1 Go to **BU eLearning** ([webtl.hkbu.edu.hk](http://webtl.hkbu.edu.hk)) and log in.
- 2 Choose the course that you have registered for Panopto@HKBU.
- 3 On the **Panopto Focus** panel, you can **download** the Panopto Recorder or **view** your completed recordings (e.g. Kenda testing).

Locate Panopto Recorder.pkg that you've download and run the application.

- 4 The installer will self extract and begin the installation. Follow the installer instructions to complete the installation. If prompted, insert credentials for installation.

- 5 Click **Close**. You can now configure the Panopto Recorder and start recording.
