

1.6 Mac Recording Status

After ending a recording with the Mac Recorder you will be taken to the status screen. Here you will be able to free up room on your hard drive, find links to completed recordings, share recordings and see the progress of recordings that are not yet available for viewing.

The screenshot shows the Panopto Recorder interface. At the top, there are buttons for 'Create New Recording', 'Logout', and 'Logged Into Server: 2k3'. Below this is a table of recordings. The table has columns for Session, Date, Length, and Status. The selected recording is 'Mac Basics - Aud + Screen + Keynote' with a status of 'Completed'. Below the table, there is a 'Recording Information' section showing details for the selected recording, including the folder path, session name, streams, status, and links to 'View Online' and 'Share'. There are also 'Delete' and 'Actions' buttons. To the right of the recording information is a 'Preview' section with 'Audio' and 'Screen Capture' tabs and a video player interface.

Session	Date	Length	Status
Tue, Oct 6 2009 at 9:40 AM	10/6/09 9:40:33 AM	00:00:11	Completed
Mac Basics Aud + Vid + Keynote	10/6/09 10:27:56 AM	00:00:51	Completed
Mac Basics - Aud + Screen + Keynote	10/6/09 10:33:54 AM	00:00:55	Completed
Example - offline recording	10/6/09 10:10:40 AM	00:02:30	Offline Recording
Mac Basics - Audio + Video	10/6/09 10:25:58 AM	00:00:22	Completed
Mac Basics - Audio Ex	10/6/09 11:37:33 AM	00:04:26	Upload Paused

A Status

shows the progress of the recording. By default the Mac Recorder will upload recordings once the User stops the recording.

B Preview

During the upload progress or after uploading, the "Preview" function allows playback of either the audio, video (with audio) or screen capture of the recording. Click  to enlarge the view of the preview playback of the recording.

C Recording Information

provides the details of the recording; "Links" means to view the recording online or share the recording with others.

If the recording has a status of **Completed** there are two buttons; "Delete" and "Actions".

Delete: Gives you the ability to delete the recording from folder "Panopto Recordings" on the local machine, which will free up hard drive space.

Actions → **Show Files:** Will open the recording named folder within the "Panopto Recordings" folder on the local computer, showing all files associated with that specific recording.

Actions → **Upload Again:** Uploading the recording again, gives the User the ability to save the same recording to multiple folders with the same or different name(s). Please refer to [3.2 Upload Again - Mac](#) for details.

If the recording has a status of **Upload Paused** the "Delete" button is replaced with "Resume Upload" which will allow the recording to continue uploading to the server.

If the recording has a status of **Offline Recording** the "Delete" button is replaced with "Choose Folder and Upload". Please refer to [3.3 Upload Offline Recording - Mac](#) for details.
