

## Teaching and Learning Experience Sharing (TALES) Workshop

### Introducing the Knowledge & Education Exchange Platform (KEEP) – An eLearning Aggregator

#### Date:

Tuesday, 20 October 2015

#### Time:

12:45 to 2:15 p.m.

(Light lunch will be served from 12:30 to 12:45pm)

#### Venue:

**ACC209**

2/F, Jockey Club Academic Community Centre,  
9 Baptist University Road,  
Baptist University Road Campus

#### Facilitators:

##### Professor Irwin KING

Principal Investigator of KEEP,  
Associate Dean (Education),  
Faculty of Engineering, CUHK

##### Professor Sandy LI (EDUC)

Project Investigator of KEEP,  
Head & Professor,  
Department of Education Studies,  
HKBU

## Abstract

Integration of innovation and technology into teaching and learning is a global trend in nowadays education. As an inter-institutional initiative funded by the UGC, the Knowledge & Education Exchange Platform (KEEP) is a cloud-based eLearning platform developed for supporting innovative teaching and learning in higher education. KEEP provides a personalized educational portal for users to easily search, subscribe and access different education resources through the cloud ecosystem. After a year of development since its launch in Summer 2014, various KEEP products (KEEPCatalog, KEEPCourse, KEEP Search, KEEPoll) as well as the Web-based Annotation & Sharing Platform (WASP) software developed by the Department of Education Studies, HKBU will be showcased in this workshop. Participants can explore those functions through mobile devices. For details of KEEP, please visit: <https://keep.edu.hk/>

## Biography

### Professor Irwin KING

Professor Irwin King is the Associate Dean (Education) of the Engineering Faculty and Professor in the Department of Computer Science and Engineering, The Chinese University of Hong Kong. He is also the Director of Rich Media and Big Data Key Laboratory at the Shenzhen Research Institute. His research interests include machine learning, social computing, Big Data, data mining, and multimedia information processing. Recently, Prof. King has been an evangelist in the use of education technologies in eLearning for the betterment of teaching and learning.

### Professor Sandy LI

Professor Sandy S C Li is the Head of Department of Education Studies at Hong Kong Baptist University (HKBU). Before joining HKBU, He served as the Deputy Director for Information Technology in Education (CITE) at the University of Hong Kong from 1998 to 2001. Since then, he has been engaging in a wide range of research pertinent to Technology in Education, which includes educational leadership and ICT implementation in schools, information literacy, computer modelling and science education, pathological internet use, social media and collaborative learning, mobile learning, etc. He has been serving on the Steering Committee on Strategic Development of Information Technology in Education for the HKSAR government.
