Abstract

In line with international best practices, HKBU is delighted to become an institutional Access Partner to the Higher Education Academy of Advance (HE) since April 2018. This demonstrates HKBU's commitment on the provision of quality teaching and learning in Higher Education. The Higher Education Academy (HEA) of Advance (HE) is a national body in the United Kingdom which champions teaching excellence in higher education across the globe to improve students' learning. The HEA/Advance (HE) awards four different categories of Fellowship, namely Associate Fellowship (AFHEA), Fellowship (FHEA), Senior Fellowship (SFHEA) and Principal Fellowship (PFHEA) which provides individuals with recognition of their good practice, impact and leadership of teaching and learning. Such comprehensive progression pathway aligns with the core objectives of HKBU. There are more than 100,000 HEA Fellows worldwide today.

To better prepare any interested parties for the application, our facilitators holding different categories of the Fellowship are invited to share tips on making successful applications. By the end of the workshop, you will be able to identify the Fellowship category that is most suitable for you at this stage of your career and have solid ideas on how to prepare for the supporting documents effectively.
