

HOW TO SHARE ZOOM RECORDINGS VIA MOODLE?

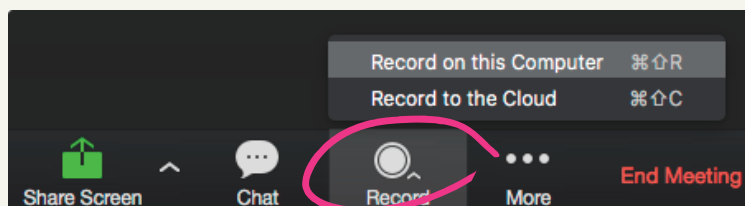

ZOOM allows users to save recordings of their meetings **on local computers** or **to cloud**.

You can enable recording automatically in the Meeting Options menu while scheduling a new meeting.

You also can click “Record” during the meeting

Please note that the recordings stored to cloud will be DELETED after 120 days.

For sharing your recordings on Moodle, you need to get a shareable link

GET YOUR SHAREABLE LINK

Please click the following options for instructions of saving your recordings i.e.
